Award Nomination Delight for NSDesign

INNOVATIVE e-commerce company NSDesign has topped an already successful year with a double nomination in the annual Renfrewshire Chamber of Commerce Awards.

The company is short-listed in two categories for the prestigious business accolades with Managing Director Gary Ennis hoping for a repeat performance of 2008 when the firm won Outstanding Company of the Year <25 Employees.

NSDesign had already been celebrating recently with new business wins of approximately £50,000, boosting its predicted growth this year by a further 15% for 2009/2010.

Delighted Gary said:

“Making the short-list of the ROCCO awards has really been the icing on the cake for us this year. We have been named as finalists again for Outstanding Company of the year and also for Customer Service – both of which mean so much to us.

“Despite the current economic climate we’ve had a great year and have been continuing to win new work. With our recent business gains we now have a predicted growth of a further 15% for next year which is a fantastic result for us.”

The company has seen consistent growth in its web services offering which has increased 20% year on year.

New business for the company has included a deal with IBTIX (the International Business Technology and Innovation Exchange) and a long term partnership with NHS Staff Benefits based in Paisley.

Gary said:

“We obviously have long and short term objectives for the business and being able to continue to provide the same level of support and service to our customer base is one of the most important – which is why being nominated in that category is crucial for us.”

The winners of the nine ROCCO awards will be announced at a gala dinner on November 20th.

Chamber President Tom Johnston said:

“We have been overwhelmed by the interest in the ROCCO Awards this year, we have received a high number of applications and the quality has been incredible. We know we are facing challenging economic conditions but it is fantastic to see local companies, large and small, buck the trend and continue to expand.

About NSDesign

NSDesign has been helping businesses and organisations maximise their success online since 1999, and is now based at the award winning Hillington Park Innovation Centre.

The company designs innovative products and services that allow their clients to do things better on the web, ranging from initial domain name registration and web hosting, to custom web development, ecommerce systems, internet marketing and training, and deliver these solutions to a range of clients from start-up companies to government bodies and universities.

The focus is strongly on accessibility and usability, providing the tools to empower users with full control over their account, backed by in-house expertise to rely upon when required.
