

Hat Trick of Deals for NSDesign

AWARD-winning NSDesign is celebrating after landing a trio of new deals, a highly recommended placing in the Scottish Design Consultancy of the Year Awards and inclusion on the Recommended Agency Register.

The company is also set to attend this year's New Start Scotland Exhibition on Friday and Saturday at the SECC.

Managing Director Gary Ennis said:

"Exhibiting at New Start Scotland marks the end of a really busy month for us with some great business wins. One of our main targets for the company is working with people who are starting up their own firms so this is a really good opportunity for us.

"Everyone in business knows exactly what challenges the current economic climate holds but for a very small company like us winning new business right now is a fantastic achievement."

BikeRite UK, the motor cycle training centre, Renfrewshire-Wide Credit Union and Alexander Wines have all signed up with NSDesign for e-commerce solutions.

Gary continued:

"We are working with all three on revamping their websites and are confident we can do an excellent job for them. Our placing in the Client Satisfaction category of the Scottish Design Consultancy of the Year Awards 2009 has also given us a real boost.

"I realise that a fourth place is maybe nothing to normally shout about, but in this case I think it is excellent news. These awards are entered by some seriously big and prestigious design consultancies and advertising agencies with hundreds of staff and millions in turnover. To be named among them - let alone have better client satisfaction than most of them - is a great achievement. It really confirms that we do put a massive focus on customer care."

About NSDesign

NSDesign has been helping businesses and organisations maximise their success online since 1999, and is now based at the award winning Hillington Park Innovation Centre.

The company designs innovative products and services that allow their clients to do things better on the web, ranging from initial domain name registration and web hosting, to custom web development, ecommerce systems, internet marketing and training, and deliver these solutions to a range of clients from start-up companies to government bodies and universities.

The focus is strongly on accessibility and usability, providing the tools to empower users with full control over their account, backed by in-house expertise to rely upon when required.
