

For immediate release

Credit Crunch Christmas Cracker for Companies

BOSSSES at a cutting edge e-commerce firm are playing Santa this festive season and will grant Christmas wishes to other businesses to help them beat the credit crunch.

Award-winning NSDesign is hoping to spread some festive cheer by sharing its expertise with potential new customers for free on Friday December 19th.

For one day only the services of Hillington-based NSDesign will be up for grabs.

NSDesign's Business Development Manager Kenny Roy said:

"We are looking to introduce people to our services and thought we could spread the festive spirit a little by operating as a free consultancy for one day only. We will devote all of Friday December 19th to helping other business with any queries and issues they have.

"So if someone is looking for some design advice or looking for information on how to set up a blog or SEO their website they can forward all their queries on to us and we will pick them at random and work our way through them.

"The offer is also open to our existing customers as a chance for them to get a wee freebie too. Obviously we are hoping that people will see what we can do and will consider using our services again in the future."

NSDesign provides internet solutions with a wide range of web design, domain registration and hosting products for its customers who include Greenock Morton FC, The Lighthouse (Scotland's Centre for Architecture and Design) and Highland Spring.

Notes to editors

About NSDesign

NSDesign has been helping businesses and organisations maximise their success online since 1999, and is now based at the award winning Hillington Park Innovation Centre.

The company designs innovative products and services that allow their clients to do things better on the web, ranging from initial domain name registration and web hosting, to custom web development, ecommerce systems, internet marketing and training, and deliver these solutions to a range of clients from start-up companies to government bodies and universities.

The focus is strongly on accessibility and usability, providing the tools to empower users with full control over their account, backed by in-house expertise to rely upon when required.
